Annual Report  
2004-2005**

This report is submitted to the Del Norte County Board of Supervisors pursuant to Government Code Section 65400(b)

**1. Del Norte County General Plan**

The Board of Supervisors adopted the Del Norte County General Plan 2000-2020 on January 28, 2003. The Coastal portion of the General Plan has been submitted to the California Coastal Commission. Additional information was requested from Coastal staff which is being compiled by the Community Development Department. The information will be delivered to the Coastal Commission by the end of September. Final certification by the California Coastal Plan of the County's Local Coastal Program request is necessary in order to implement the new policies of the General Plan within the California Coastal Zone.

**Natural Resources and Conservation** – Adopted by the Board of Supervisors on January 28, 2003. This section contains goals, policies, and programs that set the basic framework for maintenance and enhancement of Del Norte County's rich natural assets. The section includes goals, policies and programs address the following subjects: marine resources, water resources, onshore fisheries resources, soils resources, wildlife habitat resources, air resources, agricultural land, forestry resources and extractive resources.

**Safety and Noise** – Adopted by the Board of Supervisors on January 28, 2003. This section contains the goals, policies, and programs that set the basic framework for the protection of public health and safety related to natural and man-made safety hazards. This section includes goals, policies, and programs addressing the following subjects: seismic hazards, geologic hazards, flood hazards, fire hazards, hazardous materials, disaster planning and noise.

**Land Use and Community Development** – Adopted by the Board of Supervisors on January 28, 2003. This section contains diagrams, designations, standards, goals, policies, and programs that set the basic framework to guide the type, location, intensity, and quality of future development and the protection of Del Norte County's natural and built environment.

**Recreational and Cultural Resources** – Adopted by the Board of Supervisors on January 28, 2003. This section outlines the County's goals, policies, and programs for the continued development and enhancement of Del Norte County's rich recreational opportunities and cultural assets. The section includes goals, policies, and programs addressing the following subjects: County Parks and Recreation, State and Federal Lands, recreation trails, Coastal Zone recreation, Coastal Zone public access, Non-coastal river access, private recreational facilities and opportunities, and cultural resources.

**Scenic Resources** - Adopted by the Board of Supervisors on January 28, 2003. This section contains goals and policies that establish the framework for the protection of scenic resources within Del Norte County. These goals and policies will supplement the natural resource policies in the Natural Resources and Conservation section and recreation and cultural resource policies in the Recreational and Cultural Resources

section. The goals and policies in this section are organized topically according to the following categories: scenic resources (general), scenic highways, scenic drives and scenic resource areas.

**Public Facilities and Services** – Adopted by the Board of Supervisors on January 28, 2003. This section contains goals, policies, and implementation programs that establish the framework for the provision of public facilities and services to meet the demand created by existing and future development in Del Norte County. The goals and policies in this section are organized according to the following categories, each of which relates to a particular facility or service. They include: general public facilities and services, water supply and delivery, wastewater treatment, collection and disposal, solid waste disposal, school facilities, libraries, law enforcement, fire protection, utilities, storm and surface drainage, and airports.

**Transportation and Circulation** – Adopted by the Board of Supervisors on January 28, 2003. This section outlines the County's goals, policies, and programs for the continued development and enhancement of Del Norte County's transportation and circulation system. The section includes goals, policies, and programs addressing the following subjects: state highways, county roads, public transportation, transportation control measures, non-motorized transportation, air transportation, maritime transportation and tele-transportation.

**Housing** – The County and the City of Crescent City adopted a joint housing element, the City of Crescent City and Del Norte County Housing Element Update 2001-2008 on October 28, 2003. In December 2003, the California Department of Housing and Community Development certified the Housing Element Update. The Housing Element includes two sections. Section I includes six chapters which address housing background and needs. Specifically, the first chapter addresses population trends, household characteristics, and the local economy. Chapter two includes discussions on housing stock, housing conditions, overcrowding, assisted rental housing at risk of conversion and the housing market. The next chapter provides an assessment of the 1992 Housing Element. Chapter four considers housing needs for persons with special needs, the homeless, and the conservation and improvement of the existing housing stock while chapter five includes vacant land inventories. Governmental and non-governmental development constraints are examined in Chapter Six. Section II includes the goals, policies, and quantified objectives of the Housing Element for the 2001-2008 time frame.

**Coastal Element** - This Element was adopted in February 1984, and updated in July 1986. The Coastal Element is a portion of the Local Coastal Program (LCP) certified by the California Coastal Commission. The Coastal Element includes chapters addressing Public Access (to shoreline areas); Marine and Water Resources; Recreation; Marhoffer Creek Wetland Special Study; Elk Creek Wetland Special Study; Land Resources (includes agriculture and forestry lands); hazard Areas; visual Resources; Public Works; industrial; New Development; and, Land Use. Each chapter includes a background discussion, summarizes the Coastal Act policies for the subject area, lists existing local policies, and then sets out LCP policies and specific area policies and recommendations.

As stated above, the County Board of Supervisors has adopted the General Plan 2000 - 2020. However, policies, programs and implementation measures and zone changes related to the Coastal Zone must be submitted to the California Coastal Commission for

final certification. County staff is in the process of preparing additional information as requested from Coastal staff on the initial submittal.

**Harbor Plan** - The plan was adopted in 1976 and updated in 1986, and is part of the County's certified Local Coastal Program. The Harbor Plan addresses land use and policy for the portion of the Crescent City Harbor area under Del Norte County's jurisdiction. See comment above regarding status of LCP submittal of the revised General Plan. The Harbor District has hired a consultant to update the Harbor Plan. The revision process is underway.

**General Plan Amendments in 2004/2005** - There were four General Plan Amendment applications filed during the 2004/2005 period.

**General Plan Implementation** - Titles 20 (Non-Coastal) and Title 21 (Coastal) are the zoning regulations which implement the General Plan and include adopted zoning maps for the unincorporated County area. In 2004/2005 11 rezones were considered.

Titles 7 (Health and Welfare), Title 12 (Roads), Title 14 (Buildings), Title 16 (Subdivisions), Title 18 (Signs), and Title 19 (Environment) also implement the General Plan.

## **2. 2003-2004 Housing Permit Activity and Housing Element Goals**

### **Vacant Lands**

The vacant land study conducted as part of the General Plan update indicates that in 1997 the potential for 5,426 new housing units existed in the unincorporated County area. It is estimated that approximately 20% of these units have multifamily, manufactured/mobilehome park or lower cost lots in the Crescent city area which could meet the parameters for low/very low income housing. Approximately 20% of the unit potential are single-family designated situated in locations throughout the County to meet the parameters as above moderate-income housing. The majority of unit potential is in the Crescent City/ Ft. Dick area with the potential to serve as moderate/above moderate-income housing.

## Housing Needs

The 2001-2008 Regional Housing Needs Allocation Plan (RHNA) established targets for new unit housing by income category for the next planning period. The planning period is from January 1, 2001 to June 30, 2008. These figures are shown in Table 1 below.

**Table 1**  
**Del Norte County**  
**Housing Program Objectives**  
**January 2001 to July 2008**

New Construction* (by income category)	
Very Low	403
Low	247
Moderate	157
Above Moderate	473
Total	1280

\*Includes replacement housing units

Divided equally during the planning period, the number of units listed in Table 2 below should be developed each year

**Table 2**  
**Targeted New Housing Units**

Income Level Categories	7/01 to 6/02	7/01 to 6/03	7/03 to 6/04	7/04 to 6/05
Very Low Income	54	54	54	54
Low Income	33	33	33	33
Moderate Income	21	21	21	21
Above Moderate Income	63	63	63	63
Total	171	171	171	171

The Housing Element Update indicates that typically these needs would be met by mobilehome/apartment units for low/very low income, manufactured/mobilehome single family and standard single family units for low and moderate income, and single family units for above moderate income. New housing units placed or constructed are listed in Table 3.

Table 3  
New Housing Units

TIME PERIOD	7/01 to 6/02	7/02 to 6/03	7/03 to 6/04	7/04 to 6/05
Mobilehome Park Placements	22	12	33	29
Manufactured/Mobilehomes on Private Owned Land	16	45	44	55
Multifamily	0	0	0	0
Single Family	68	94	112	119
Total	106	151	189	203

\*These figures include replacements

Although the number of units for each of the years may not meet the anticipated average, the overall number of units has exceeded projections. The distribution of types of units for all income levels is addressed below.

Income level categories are based upon Federal and State formulas using the local median income. For example, in 2005 a family of 4 would be defined by the following income categories:

Extremely Low	\$0.00 to \$14,750
Very Low Income	\$14,751 to \$24,550
Low	\$24,551 to \$39,300
Moderate	\$39,301 to \$58,900
Above Moderate	Over \$59,901

These numbers have not changed since 2004. Assuming that a household of four persons can purchase a home that costs up to three times the household income, the following home price categories match the income categories listed above.

Extremely Low	\$0.00 to \$44,250
Very Low	\$44,251 to \$73,650
Low	\$73,651 to \$117,900
Moderate	\$117,901 to \$176,700
Above Moderate	\$176,701 and above

The County Planning Division maintains a database of building permits for all new construction in which assessed values for the land and improvement are inputted when the information becomes available. The goal is to track the number of residential units that are being placed or constructed and how these units fit into these categories. Due to the length of time from the beginning of construction to the issuance of the Certificate of Occupancy to the final assessment by the Assessor's Office, it is impossible to provide land/improvement values for the residences constructed/placed in the current year under review. The records are fairly complete fiscal year 2003-2004 with the exception of few residences which are still under construction or have not been appraised. Below is an estimate of how these residences fit into the above home price

categories. These numbers do not match the number in Table 3 since they do not include replacement residences which are not included in new housing counts.

Extremely Low	\$0.00 to \$44,250	24 units
Very Low	\$44,251 to \$73,650	4 units
Low	\$73,651 to \$117,900	15 units
Moderate	\$117,901 to \$176,700	39 units
Above Moderate	\$176,701 and above	88 units

>28

When comparing these numbers by allocation to Table 2, the targeted housing units are at all levels below moderate are not being met. Furthermore, less than 10 of those units that were below the low income level were located within the Coastal Zone.

### Targeted Housing

Rural Human Services operates Harrington House, an emergency shelter for victims of domestic violence. In July 2004, a new 28-bed facility was opened. The new facility provides for additional clientele and expanded living management programs.

In 1995 the County approved a use permit for a 30-unit farmworker housing/daycare development under the rural Human Services non-profit umbrella in the Smith River community. It is County staff's understanding that the project was not developed due to sale of the property to another party. During 1998-99 the County provided pre-application consultation services with Rural Human Services to explore the development of a low-income housing project at other locations in the community of Smith River. In 2001, the County assisted the Del Norte Housing Development Corporation with a pre-application review for a separate low-income housing unit project in Smith River. County staff attended several meetings with DNHDC staff to discuss issues relevant to the site selection. Due to physical constraints related to agricultural lands in the Coastal Zone, the preferred site was eliminated and an alternative site across the highway was selected. An application was submitted for this location that proposed the construction of multifamily units, a community center and medical offices. The application is currently incomplete due to issues related to on-site sewage disposal. It is staff's understanding that the applicant is working with their consultants and the State Regional Water Quality Control Board staff to provide complete information to the County.

No assisted housing programs or projects have been identified as at-risk for conversion.

The County continues to provide a housing rehabilitation loan project for targeted income properties. The Del Norte County Housing Element Update 2001-2008 sets a goal of 45 units for the January 1, 2001 to June 30, 2008 time period. Due to the uncertainty of the availability of housing rehabilitation funds as a result of the State budget, a conservative target is estimated. Table 4 lists the number of loans issued for rehabilitation for the last 2-½ fiscal years. On average, a 6 or 7 loans should be issued each year.

**Table 4**  
**Housing Rehabilitation Loans**

Fiscal Years for Planning Purposes	7/01 to 6/02	7/02 to 6/03	7/03 to 06/04	7/05 to 06/05
Rehabilitation Loans	2	5	7	0

Based on these figures, the County is short of meeting its annual target for issuing housing rehabilitation loans. Although funding is available for rehabilitation projects, staffing and other office duties of remaining staff have resulted in the housing rehabilitation program taking a step back in priority. Also, outreach to eligible low income owners has not resulted in many applications. According to Grants staff there are pending applications for the current fiscal year.

Unassisted rehabilitation also occurs through the issuance of building permits for individual property owners through private funding. The Del Norte County Housing Element Update 2001-2008 has set a goal of 1,800 permits for rehabilitation projects including replacement plumbing, replacement electrical and reroofs. Table 5 below breaks down the numbers of permits that were issued for each type of rehabilitation for the last 3 planning periods. On average, 240 number of permits must be issued.

**Table 5**  
**Building Permits issued for Rehabilitation**

Type of Permit	# permits issued from 07/01 to 06/02	# permits issued from 07/02 to 6/03	# permits issued from 7/03 to 6/04	# permits issued from 7/04 to 6/05
Plumbing including Septic	50	35	53	31
Reroofs	50	86	115	122
Electrical	87	95	99	77
Total	187	216	267	230

These figures do not include repairs made through the weatherization program managed by the Del Norte Senior Center. Tracking of the building permit activity indicates that the County will be very close to achieving its 2001-2008 targeted goal of 1,800 units if building continues at the present pace.
